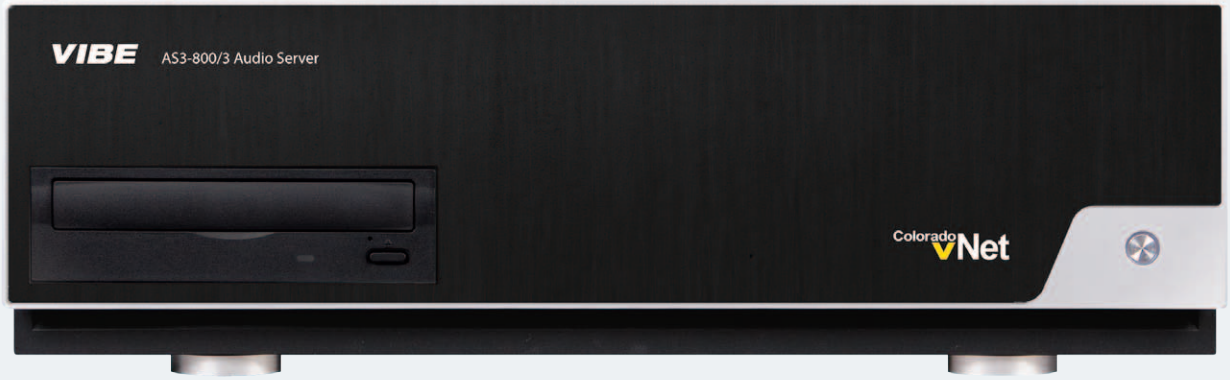
Vibe Audio Server

AS3-800/3

Colorado vNet®
Life Simplified™



Imagine having instant access to an entire CD collection, from any room in the house, at the touch of a finger. The Vibe™ Audio Server stores and organizes hundreds of CDs in their original, uncompressed digital format for instant retrieval. Access full AMG metadata to browse by artist, album, song title, genre or custom playlist from any Vibe Color Touchscreen Amplifier, and stream full range, lossless CD-quality digital audio over IP to anywhere in the house.

The AS3-800/3 Audio Server can store up to 800 CDs on its 500GB hard drive and deliver three unique, simultaneous audio streams onto a Vibe system. Those broadcasts of up to three independently-controlled streams of audio allow play of multiple content streams, in different rooms, at the same time. Play what you want, where you want with a Vibe Audio Server.

Primary Features

- Streams uncompressed digital audio content over IP
- Stores up to 800 uncompressed CDs
- Delivers up to 3 independent simultaneous audio streams
- Pre-loaded with AMG album metadata
- Rip and store uncompressed CD content
- Load audio files directly from your networked PC
- Uncomplicated setup and installation
