

Vibe Dock for iPod

ID1-1

For more than 50 million people, the iPod® has become more than just a music player. It's the soundtrack to your daily life, from pumping you up at the gym to taking the edge off of your commute. Why should the beat end when you get home?

That's why Colorado vNet has introduced the Vibe Dock for iPod. The Vibe Dock is an integral part of our acclaimed Vibe audio system, bringing you stunningly crisp, clear digital audio that's accessible from anywhere you are. With the Vibe Dock, your iPod is truly a part of your home system.

Drop your iPod into the dock and stream its audio digitally to any room in the house. Display metadata on any connected Vibe Touchscreen Amplifiers– artist, album, song, playlist, genre and more.

Your iPod keeps pace with you wherever you go. Now you can keep the beat going at home with the Vibe Dock from Colorado vNet.

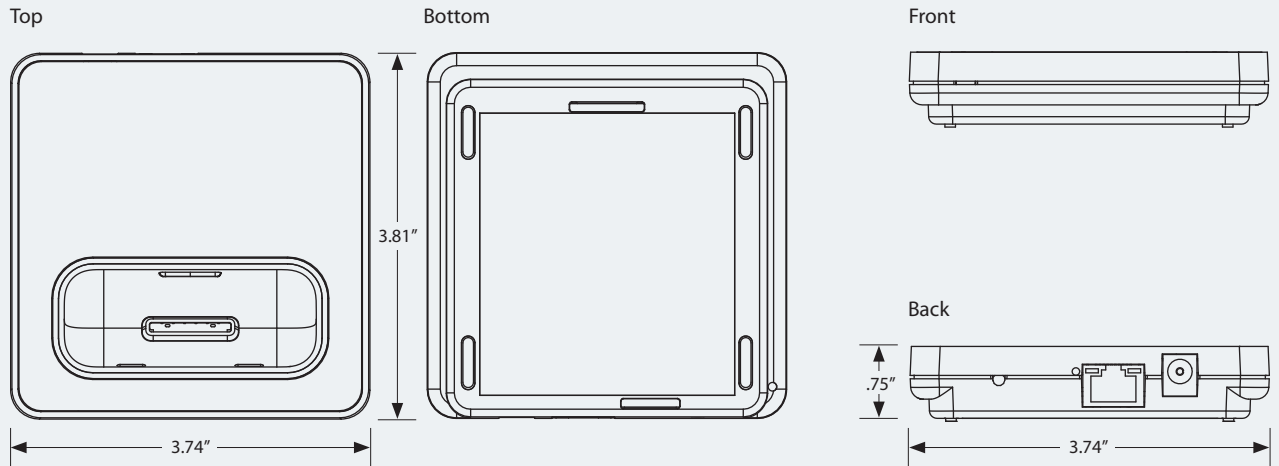

Primary Features

- Stream uncompressed, digital audio content over IP
- A single Vibe Dock and Vibe Color Touchscreen Amplifier are all you need for a Vibe home audio system
- Control your iPod from any Vibe Touchscreen, anywhere in the house
- Charges iPod while streaming audio
- Fully expandable, along with the rest of the Vibe system – add multiple Docks throughout the house, run multiple iPod players in different rooms.
- Wide selection of adaptors for all current iPod models
